Uniqueness of international study program at VHL Netherlands:

Unique International Course

Our program is built on the Dutch education system, emphasizing student autonomy and self-directed learning. This approach empowers students to take ownership of their education and develop essential skills for success in the global marketplace.

International Exposure

In the final two years of the program, students gain international exposure through:

- **Study of International Supply Chain:** Understanding global supply chain dynamics, sectors, and markets.
- **Industrial Study Visits:** Visits to international companies, providing hands-on experience and insights into global business practices.
- **Case Study Reports:** Students analyze and report on real-world business cases, developing critical thinking and problem-solving skills.

Self-Directed Learning

Students are encouraged to take an active role in their learning, with:

- **Self-Motivated Internship Search:** Students find their own companies for internships, developing networking and job search skills.
- **Thesis Completion:** Students complete a thesis project, demonstrating their ability to conduct independent research and analysis.

Key Benefits

- **Global Perspective:** Students gain a deep understanding of international business and supply chain management.
- **Autonomy and Self-Directed Learning:** Students develop essential skills for success in the global marketplace.
- **Practical Experience:** Industrial study visits and internships provide hands-on experience and industry connections.

Other eligibility criteria:

6.0 score in IELTS exam

Should have successfully completed all assignments designed by VHL University Netherlands.

Why choose International 3+1 or 2+2 Program in Collaboration with VHL, The Netherlands:

- ✓ You will build an international network through your international classmates, internships, and visits to trade fairs and companies.
- ✓ You will gain specialist knowledge of the entire supply chain, like protein to energy bar, from mango to smoothie, from tree to desk.
- ✓ The Netherlands is a global leader in agribusiness and trade. As one of the world's largest food exporters, it has strong trade connections across Europe and beyond. With innovative solutions and access to major markets, it's the perfect start for an international career.
- ✓ You will learn to innovate in the global food business in a way that is financially responsible as well as sustainable and socially aware, making you highly sought after on the international job market.
- ✓ You will also be prepared to tackle complex challenges, such as working to make healthy food affordable. Topics include food security, food safety, climate impact, and complex issues surrounding raw material shortages.
- ✓ 3+1 or 2+2 has a long-term partnership with VHL, The Netherlands, offering you the chance to do an internship or research assignments. If you live in India or nearby, it is also possible to complete your first two years at Baramati followed by two years at VHL.
